

THE EXTRA SESSION.

Senator Voorhees Delivers His Great Anti-Purchase Speech

BEFORE A MOST ATTENTIVE AUDIENCE.

Refusing to be Interrupted by Questions or Comments—Mr. Cockrell Questioned—Silver Debate Continued in the House.

WASHINGTON, Aug. 22.—Mr. Allen (rep., Neb.) gave notice of an amendment which he would offer to the bill reported by Mr. Voorhees, disallowing the purchase of silver bullion. It proposed to add to the repealing clause of that bill a provision that hereafter silver should be coined at the several mints of the United States at the rate of 16 to 1, and the same conditions as to the mintage and other charges as in the act of 1876, and that the secretary of the treasury should without unnecessary delay cause the silver bullion owned by the government to be coined into standard silver dollars to the extent of \$100,000,000.

Mr. Peffer (rep., Kan.) introduced a joint resolution which was referred to the finance committee, for the reduction of the salaries of all government officers and employees to \$1,000.

Next day the finance committee reported its report on the amendment of Mr. Voorhees, which was given by Mr. Peffer (rep., Kan.) for Thursday.

Mr. Voorhees (dem., Ind.), chairman of the finance committee, then took the floor and addressed the senate in advocacy of the bill reported by him. He said that the bill reported by him was a measure of great importance, and that it was one which he believed would be of great benefit to the country.

From the first sentence he commanded the close and earnest attention of senators on both sides of the chamber, and of an equally large audience in the galleries. He had not been speaking ten minutes when a member of the opposition interrupted him by asking a question.

NEWS FROM HAWAII.

Everything Quiet Since Mr. Blount Left the Islands. By Native Juries—Japan's Fine Italian Hand in the Provisional Government—Alleged Protectors of an American Prospector.

SAN FRANCISCO, Aug. 22.—United Press dispatches by the steamer Honolulu which arrived yesterday are as follows: Everything has been quiet in politics since the 8th when Mr. Blount left to steer in our own juice. At the present term of court all native criminal cases have been acquitted by the native juries, regarding the most positive evidence. The conspiracy cases will be tried by white juries.

Arthur Johnston, editor of the Pacific Commercial Advertiser, has been arrested for criminal libel in publishing a letter from Antonio Clowes, who charged Walter Ferguson of traffic in human flesh. Capt. Ferguson, with Paul Severson, has secured 140 Japanese here to go to Guatemala.

Japanese Commissioner Hagi strongly opposes their going, as Japan has no treaty with Guatemala. Clowes and others transport foreign contract laborers to Guatemala, where they are ill-treated and badly fed and treated.

The Australian arrived from Honolulu last night bringing the following advices to August 16: Mr. Magnuson, representing a number of San Francisco's unemployed creditors, will move on Thursday to have that gentleman declared bankrupt.

It is learned that Japan continues to urge upon the provisional government the demand that all Japanese who have left shall enjoy equal rights and suffrage with other foreign residents, subject to the same qualification for voting. Mr. Blount several weeks since requested President Dole to postpone his reply until he could communicate with Washington on the subject.

Mr. Blount's interposition has not excited much interest in the Hawaiian Islands. In respect to the alleged proposal for an American protectorate in Hawaii Mr. Blount has explicitly denied that Mr. Blount has ever discussed with the provisional government the expediency of either an election or protectorate. It is quite generally believed that Mr. Blount's opinions incline toward a strong protectorate and that the governments are not unaware of the fact.

The situation of the Hawaiian government continues to rapidly improve. Cash balance in treasury, \$108,000, against \$24,000 on June 1.

The program will include lectures by famous men and women of Kansas, concerts, military drills and official visits to the buildings of other states.

Brilliant Reception to the West Point Cadets. WORLD'S FAIR GROUND, CHICAGO, Aug. 22.—The state buildings and adjacent lawns were ablaze with mellow light last night in honor of the West Point cadets, who were given an interesting reception and festival. The entire north end of Jackson park was brilliantly illuminated, and music was on every breath of air.

A tremendous crowd surged from building to building, and in each the reception accorded the boys of West Point was cordial in the extreme. All the state buildings were open until 11 o'clock, and in most of them receptions and dances were given. The West Point band was posted at the Michigan building.

Paid Admission to the World's Fair. CHICAGO, Aug. 23.—The paid admissions at the World's fair yesterday were 103,390.

Senator Voorhees

represented. Therefore he deemed fitting a few words in explanation spoken in no spirit of strife or controversy. For five months had gone up the voice of the prophet of financial evil, from the great money centers and unnumbered credit offices, contracting currency and resulting in panic. No one believed there was want of confidence in the government, credit or in the stability of currency. Notwithstanding the empty treasury left by the last administration and the record of a billion dollar charge, the credit of the government was today better than that of any country on the face of the globe, and even more capitalistic nations upon our bonds with swift greed.

There were many reasons why our credit should be stronger than ever before. It rested upon the absolute unity of purpose of the American people that it should be upheld. No man but a political madman could make a political contest over again possible on lines of sectional animosity. The public credit of every European government was usually threatened by shadows of coming war. Financial resources there were constantly weakened by war, and the world credit there were none to molest us or make us afraid of war or rumors of war.

Mr. Voorhees said that he spoke in no spirit of strife or controversy. He said that he believed the bill which he had reported was one which would be of great benefit to the country, and that he believed it should be passed.

## THE AUTOMATIC TELEPHONE

Instruments in Place in Decatur  
in Full Operation.

Interview With the Inventors—  
Rental Only \$25 a Year—No  
"Hello, Girls!"—Probable Cost  
of the Decatur Plant.

Decatur people will in a few months  
have the full benefit of the Harrison  
automatic telephone system, simple and  
perfect, no annoying waits, and no  
"Hello, Girls!" with a cost of each phone  
of only \$2 a month or \$25 a year. It is  
a sure thing, and it will be practically a  
home enterprise, with the subscribers  
owning a majority of the stock. The  
Central Mutual Telephone Company of  
Decatur will operate the plant. The  
officers are O. T. Kirtland, president; W. J.  
Kurtz, vice-president; Dr. J. G. Harvey,  
secretary; C. N. Twissell, treasurer;  
with Dr. Robert Tobey and O. E. Harris,  
members of the directory. The company  
has been granted pole and wire franchises  
by city ordinance, and as soon as a few  
details can be arranged will begin to con-  
struct the plant and get the telephones  
in place for general use. Over 500 citi-  
zens, including nearly all of the leading  
business firms, have signed an agreement  
to rent the machines, and no doubt all of  
the 500 and many more will become  
stockholders in the company. The Na-  
tional company will place 1000 shares of  
the stock on sale in Decatur at \$25 per  
share, and in this manner prospective  
funds will be realized to construct the  
plant and extend its usefulness. The  
stock is non-assessable. After the plant  
is built and equipped there will be no  
local expenses except for operating pur-  
poses, which will not exceed \$3000 per  
year.

The capital stock of the Harrison In-  
ternational Telephone Company is \$30,  
000,000, with general offices in Chicago.  
The national officers are C. M. Ferree,  
president; H. M. Holden, vice-president;  
A. L. Stone, secretary; Ebenezer Davis,  
assistant secretary; director, C. O.  
Kerens, St. Louis; George H. Peck,  
Chicago; William Warner, Kansas City;  
D. J. Young, Ft. Smith, Ark.; L. E.  
Lugala, Chicago; J. T. Blake, Kansas  
City; executive committee, C. M. Ferree,  
R. C. Kerens and H. M. Holden; counsel,  
William Warner, Geo. R. Peck, W. H. H.  
Clayton and E. B. Clark, patent attorney.  
During the past few days several of  
the national officials have been in the city,  
together with the inventor of the wonder-  
ful automatic telephone, which was con-  
ceived in 1870 by Dr. Ford, and after the  
expiration of the patent, the idea was  
brought to the present state of amazing  
perfection. Several of the 'phones are  
now in position at the St. Nicholas hotel  
where they are open for inspection. The  
public generally is cordially invited to  
call and submit the instruments to the  
severest tests. Many have already done  
so and they have gone away more than  
pleased and impatient for the early  
introduction of the automatic system in  
Decatur.

INTERVIEW WITH FORD AND HARRISON.  
Dr. Harrison Ford, of St. Louis, the in-  
ventor of the telephone, and E. M. Har-  
rison, the chief electrician of the National  
company, in an interview with a Republi-  
can reporter had a great deal to say in  
explanation of the successful operation of  
the automatic system, and backed up  
their statements by practical demonstration.  
The gentlemen said in substance:  
"Our Automatic Exchange compre-  
hends everything in this line that has  
been conceived, and it is the most com-  
plete and perfect system of the kind ever  
invented, and is designed to take the  
place of the switchboard and telephone  
girls used in the central offices of the  
present system."  
"In economy and convenience of tele-  
phone service, this Automatic Exchange  
accomplishes three important purposes:  
First, it saves the cost of salaries of  
maintaining a central office with its  
corps of contact makers and other help.  
It also reduces the space required for a  
central office, to about one-third of that  
required by the present system. By the  
use of the Automatic Exchange, the large-  
est telephone system will not require for  
its central office, more than a few hundred  
square feet of space, and two or three employ-  
ees to keep the machine oiled and operating  
smoothly, is all the help that is necessary  
for its maintenance."  
"Second, by the use of our Automatic  
Exchange the cost of constructing and  
maintaining the plant is greatly reduced,  
and the cost of the telephone is reduced  
by reducing the number and length of  
wires used, and also reducing the num-  
ber of soldered contacts necessary in con-  
necting or disconnecting the plant. The  
cost of the plant is reduced by the use of  
many wires in this system, being much  
less than in the present system, it natu-  
rally follows that the amount of help,  
such as men and boys, required to keep  
the lines in order is also less."  
"Third, the use of the Automatic  
system adds greatly to the convenience  
of the subscriber, and makes it a great  
convenience to the public, by reducing  
and annoying in the use of the telephone.  
By this system any subscriber in an ex-  
change, however large, is enabled to  
communicate with any other subscriber  
instantly and almost instantly, simply  
by turning a handle on a dial (similar to  
the dial of a clock) to the required num-  
ber. The longest distance required in the  
largest exchange to secure connection or  
disconnect the line is a matter of a few  
seconds. The certainty of securing per-  
fect connection is absolute, and the  
ability to arrange for connection is  
reduced to the minimum."  
"In conclusion we would say, the Har-  
rison International Telephone Company  
has secured all the latest and best inven-  
tions and patents in the line of tele-  
phone and telephone appliances, also  
the fundamental principles of the auto-  
matic system, and believes it is in position  
to control everything in this line, and  
can unhesitatingly say it is better  
than any other system of the kind now  
in use. It is a sure thing, and it will be  
practically a home enterprise, with the  
subscribers owning a majority of the stock.  
The Central Mutual Telephone Company of  
Decatur will operate the plant. The  
officers are O. T. Kirtland, president; W. J.  
Kurtz, vice-president; Dr. J. G. Harvey,  
secretary; C. N. Twissell, treasurer;  
with Dr. Robert Tobey and O. E. Harris,  
members of the directory. The company  
has been granted pole and wire franchises  
by city ordinance, and as soon as a few

Attorney Perry L. Odor died this morning at 8 o'clock at the home of his parents, Mr. and Mrs. J. N. Odor, southwest of the city, aged 23 years, 9 months and 10 days, of consumption. Mr. Odor studied law in Chicago, where he had acquired a lucrative practice. He was a well-informed young man and was well liked by a large circle of friends. His health began to fail last January and he continued to grow worse until May, when he came home, thinking outdoor life on the home place would benefit him, but he grew no better, and this morning passed away, surrounded by his relatives and friends. The funeral will take place Friday morning at 10 o'clock from the Salem church.

**Wheat Selling at 55 Cents.**  
This is a busy time at the Shellabarger Mill and Elevator Company's plant. The entire office and mill force is on the jump waiting on farmers. The space around the mill is crowded with teams and wagons. Yesterday 2800 bushels of wheat were unloaded at the mill, sold at 55 cents a bushel, some brought a discount of 15 and 20 miles. Decatur is paying the highest price for wheat at present. All of it is coming over the river. Farmers come to the city with loads of wheat, get their money, buy goods at the stores and go back home with loads of coal from the Decatur shaft. The Shellabarger will take all the wheat they can get at 55 cents.

**Dog Case on Trial.**

**The Crosthwaits.**  
The select readings given under the auspices of the Young People's Endeavor society at the First M. E. church last evening, by Mr. L. L. Crosthwaite, the eloquent, assisted by Mrs. Crosthwaite, reader and vocalist, drew a large and splendidly entertained by the talented and gifted couple. The program included a variety of difficult selections, embracing "The Chariot Race" from Ben Hur, "The Yagshonds," "The Uncle," in costume, and vocal numbers. Mr. Crosthwaite acquitted himself so well, both in elocution and gestures, bringing out the full meaning of the themes so that each seemed like a picture, that the applause was enthusiastic and prolonged at the close of each number. The eloquent is quite versatile and with appropriate ease was successful in portraying pathetic and humorous characters. Mrs. Crosthwaite, who is a pleasing reader, was equally clever in her recitation, which denoted close study and a full appreciation of the theme. Miss Blanche Ouel, Mrs. B. A. Gier, S. H. Gier and B. A. Gier, with Miss Clara Clark as pianist, gave musical selections. The solos by B. A. Gier and Miss Clara were gems.
